Kualitas Terbaik yang Konsisten

Brand susu ternama di Indonesia dengan kualitas premium, dipercaya oleh banyak merek besar. Bersumber dari peternakan modern terbesar di Indonesia yang dikelola sendiri. Menjamin kualitas dan pasokan yang konsisten sepanjang tahun.

Jaminan Mutu

Memiliki jumlah mikroba terendah dibandingkan produsen lain: hanya 20.000 --- 30.000 TPC (hanya 2% dari batas SNI 1 juta). Satu-satunya susu segar dari Indonesia yang lolos ekspor ke Singapura, Hong Kong, dan Filipina.

Seimbang

Komposisi protein, lemak, dan karbohidrat yang optimal dan seimbang. Protein menghasilkan *microfoam* yang lebih tebal dan stabil. Lemak memberikan tekstur lebih *creamy dan silky*, sementara karbohidrat menghasilkan rasa manis alami.

Pelayanan Terpercaya

Pengiriman rutin H+1 untuk memastikan persediaan selalu tersedia bagi kebutuhan bisnis Anda.

Consistently High Quality

A leading dairy brand in Indonesia known for premium quality and trusted by many top brands. Sourced from Indonesia's largest Own modern dairy farm. Ensures consistent quality and supply year-round.

Quality Assurance

Greenfields Fresh Milk has one of the lowest microbiological counts in the industry 20,000 – 30,000 TPC (just 2% of 1 million TPC limit set by Indonesia National Standard). The only fresh milk from Indonesia approved for export to Singapore, Hong Kong, and the Philippines.

Nutritionally Balanced

Optimally balanced levels of protein, fat, and carbohydrates. High protein creates thicker, more stable microfoam. Fat adds a creamy, silky texture, while carbohydrates contribute a naturally sweet flavor.

Reliable Service

Next-day (H+1) delivery keeps your business consistently stocked and running smoothly.
